

This pattern requires a piece of cardboard, 16 push pins, and string (provided).
 You may also need scissors.
 The finished art piece will be approximately 7.5" in diameter.

Step 1: Place this pattern on the cardboard.

Step 2: Push your pins through the paper at the red dots (the points).

Keep the paper in place to use as a guide. (For an advanced version, remove the paper and replace the pins in the holes and refer to the guide as you go!)

Step 3: Tie one end of your string at the first point. This is marked with the number 1. Leave a "tail" of string to be used later.

Step 4: Do not cut your string. Wrap the string around the other points in numerical order (1, 2, 3, etc.). Make sure to wrap the string a few times so it does not slip!

You will go over each point at least twice. Each point contains an inner number written in black, and an outer number written in green.

Step 5: After you reach the last number (32), return back to number 1 and tie a knot.

You can use the tail from the first knot to help secure both ends in place.

Trim any excess string.
